

LES DESSINÉS

Hanging instructions

**Our paper is a thick, washable non-woven paper.
We recommend you to apply a glue for non-woven
wallpaper, the glue must be applied to the wall.**

**The strips of your decor are numbered,
look at the numbers to define the order of the
the different panels and make sure that the connections are
correct.**

**To begin, your substrate must be clean and smooth,
The wall can be coated with a white primer.**

**Use a non-woven paper adhesive and follow the manufacturer's
instructions for use.**

**Apply the glue generously to the wall
and use a level to lay the strips,
even on a new wall it is very rare that the wall is
perfectly straight!**

**Once everything is laid, you can cut the margins
with a new cutter.**

**Many video tutorials are available on the internet,
you can watch them before you start!**
